Chemsol₄ Fizzy Tabs Disinfectant

Sodium dichloroisocyanurate (NaDCC or SDIC) is a chemical compound widely used as a cleaning agent and disinfectant. The effervescent tablets are preferred in the hygiene market for instant dissolving of the organic chlorine when compared to the traditional granular SDIC.

Chemsol₄

FIZZY TABS DISINFECTANT

NRCS Registered
ACT 5 GNR529/294379/140/1188

PHYSICAL PROPERTIES

Chemical formula $C_3HCl_2N_3NaO_3$
Odour Chlorine like
Appearance White effervescent 5 gram tablet
acidity (pK) 6.2-6.8

SUGGESTED APPLICATIONS

- Bleaching Agent
- General Household / hard surface cleaner
- Equipment cleaning
- Rinse water

FEATURES

- Stabilised form of organic chlorine
- Product does not lose strength over time
- Outstanding detergency
- Effervescent tablets
